When using AutoCAD, you are often asked to send a picture of your drawing to be included in the documentation or marketing material. Now, you can send more than just one image at a time. Your feedback is automatically incorporated into your drawing. This means that you don't need to edit the drawing after you send feedback, AutoCAD will automatically incorporate the changes into the drawing. Preview Feedback Updates: Make changes to your drawing in the latest version of AutoCAD. AutoCAD will show you changes to your drawing that have been made since you last previewed. These changes can be applied or saved automatically to the drawing. Built-In Labels: Create labels directly in the drawing and in the block editor. (video: 1:50 min.) Built-In Data Linking: Link objects to other AutoCAD drawings or files. Now, you can specify the source drawing or data file. (video: 0:20 min.) AutoCAD 2023: A New Direction The goal of the new release of AutoCAD is to be more intuitive. The new release includes a number of changes that have been designed to make it easier to incorporate feedback into your designs.
